

An aerial photograph of Andorra at dusk. The town is illuminated by warm streetlights and building lights, contrasting with the cool blue and purple tones of the twilight sky. The town is nestled in a valley, surrounded by steep, rugged mountains. In the foreground, the rooftops of traditional stone buildings are visible. A prominent, modern, glass-clad tower stands out among the older buildings. The word "PAGERO" is overlaid in large, bold, green letters at the top left.

Introduction and document purpose

Pagero Group builds the world's largest, open business network – so you can reach any business, anywhere in the world. No matter how many borders your operations may cross or how many systems you are connected to, we take care of the technical and regulatory requirements across your entire order-to-cash, purchase-to-pay and freight processes. We give you data accuracy and security, transparency and real-time visibility – through a single connection.

At Pagero Group, we believe that technology supports sustainability. That's why we are committed to helping businesses become 100% paperless, supporting resource efficiency, transparency and business continuity.

The main purpose of this country compliance report is to provide the reader with an in-depth analysis of the focus country's laws, regulations, and process with regards to e-invoicing and other trade documents. The analysis considers topics such as business requirements before switching to electronic invoices, e-document creation, e-document distribution, integrity and authenticity, and, finally, e-archiving.

This document guides how Pagero solutions support customers in the focus country to meet local regulations and serves as a supplement to Pagero General E-invoicing Process Description.

The information provided by Deloitte which is part of this material was solely prepared as general information. It was prepared to meet with specific requirements and was not prepared for any other purposes or objectives. Changes in conditions over time may affect the contents of the material and its content. We do not express any opinion or conclusion in this material.

© 2018

1. Terminology

This section outlines general and country-specific terminology for Andorra, which will be used throughout the whole document.

Term	Explanation
B2B	Business to Business is a transaction or business conducted between one business and another, such as a wholesaler and retailer.
B2G	Business to Government, and refers to the exchange of goods, services or information between a business supplier and a public procuring entity.
IGI	Impost General Indirecte (Value Added Tax).
NRT	Número de Registre Tributari (Tax Registration Number).
Post Audit	The post-audit model allows trading partners to exchange e-documents as well as other transactional fiscal documents (including but not limited to invoices, further called “e-documents”) directly with each other, without any real-time or immediate controls performed by the tax office. Even though e-Document is allowed, there are no prescriptions as to in what format, infrastructure or how they should be issued or distributed. The tax audits are performed afterward.

2. General overview

This section provides an initial introduction into the local e-Invoicing environment within Andorra, including the types of local e-invoice regulations, go-to governmental and industry bodies, and whether multiple invoicing regimes, that is, varying regulatory requirements, exist for example by industry, business size, or other defining factors.

Item	Commentary
Authorities and other agencies relevant for e-invoicing	• Andorran Government • Department of Taxes and Frontiers
Main applicable legislation in respect of e-invoice issuance, exchange, reception, and retention	• Legislation and Doctrine • Reglament que regula les obligacions de facturació 08/05/2019 • Law 11/2012, of June 21, on General Indirect Tax • Law 35/2014 on Electronic Trust Services

3. E-Invoice status

When considering sending or receiving e-Invoices two basic questions should be considered: (i) whether an e-Invoice is equal to a paper invoice from the legal perspective, and (ii) whether there are any situations where e-Invoicing is mandatory for reception or transmission.

Item	Commentary
E-invoice status	• Allowed.
Varying invoicing regimes¹	• N.a.
e-Invoicing model	• Post Audit.
e-Invoice definition²	• Electronic invoice is understood as the invoice issued, transmitted, and received in a structured electronic format that allows automated and electronic processing.
Scope of taxpayers the e-document mandate applies to	• The issuance of electronic invoices is voluntary for all suppliers. • All public authorities are mandatory for Receiving.
Mandatory AoR (document response) process	• No explicit requirement.
Implementation / roll-out plan	• No official plan.

¹ It is possible that a business is required to send e-invoice in some scenarios and send voluntarily in others.

² Differing definitions may exist between different levels of government, or differing legislation, i.e., accounting law and IT law.

4. Before switching to e-invoices

4.1. IT³ registration

The following thresholds apply to the requirement to be registered for an IT number in Andorra:

- Exemption for small businesses – EUR 40.000.
- Agriculture and livestock activities that do not exceed – EUR 150.000.

Please note that the thresholds stated above are not an exhaustive list of circumstances requiring local IT registration.

NRT Number Format		
Entities	A + 6 digits + 1 control letter	Limited company
	L + 6 digits + 1 control letter	Private limited company
	E + 6 digits + 1 control letter	Non-resident legal entities
	D + 6 digits + 1 control letter	Public entities/bodies

For legal entities the Tax Administration will assign a unique number, although they are resident or not in Principality of Andorra. The number is invariable unless there is a change in legal status or nationality.

4.2. Process to switch to e-Invoicing

Even though many countries encourage or even mandate e-Invoicing, there may be specific requirements on the Trading parties – typically the Supplier – before starting an e-Invoicing program. This section provides a brief overview of such requirements.

³ For the purpose of this document, IT refers to Indirect Tax, including, but not limited to Value-Added Tax (VAT), Goods and Sales Tax (GST), Sales tax, etc.

Item	Commentary
Actions towards authorities, required in order to enable electronic processing instead of conventional processing	• No.
Actions between the trading partners, e.g., customer acceptance, agreement, etc.	• Tacit acceptance is sufficient. • Pursuant to Article 15 of the Invoicing Regulation, the invoice recipients can require that invoices are issued in paper format.
Transition period from the moment of starting e-invoicing during which, e.g., parallel invoicing may be allowed	• No explicit requirements.

4.3. Outsourcing invoice issuance function

Many companies decide to outsource the issuance process of e-invoicing to third parties who have the necessary infrastructure and knowledge of implementing and executing e-Invoicing. This may be driven by a technical limitation or local regulatory requirements. However, before doing so, it is highly recommended that a supplier investigates whether such outsourcing is permissible and whether any requirements must be fulfilled.

Item	Commentary
Whether outsourcing of invoice issuance (creation) is allowed or not	• Allowed.
Whether statement of outsourced issuance is required on the invoice	• Yes. "Issued in the name and on behalf of the supplier".
Whether outsourcing agreement is required between the taxpayer and the third-party is performing actions on its behalf	• Required.
Content and formality requirements to the Outsourcing agreement between the taxpayer and the third-party	• Outsourcing agreement must include the authorization to perform invoice issuance on behalf of the outsourcing party. This agreement must be signed prior to carrying out the operations and must specify the operations to which it refers.
Whether any notifications to or derogations from authorities are required in the specific jurisdiction for outsourced issuance	• No explicit requirements.
Whether, and which, requirements exist to the outsourced party to be able to act on behalf of the taxpayer	• No explicit requirements.

4.4. Outsourcing invoice receipt function

Due to the unique nature of the AP process, it may be required for the buyer (invoice receiver) to have an explicit agreement, or other permissions to be put in place for Service Providers to conduct invoice receiving functions on behalf of them.

Andorra has no explicit requirements on the outsourcing of the function of receiving invoices (like the function to issue invoices as outlined above).

5. Document processing

5.1. Format and other technical requirements

Globally, a multitude of e-Invoicing formats and infrastructures exist. Local regulators often offer or mandate the use of certain formats, standards, or platforms for the transmission or delivery of invoices or other tax-related documents. Pagero has the technical depth and experience to support country-specific technical requirements globally.

Item	B2G	B2B
Mandated document format(s) for exchange with mandated Gov platform(s) and/or between the trading parties	N.a.	N.a.
Other document format(s) commonly used for exchange between trading parties	- All suppliers who have delivered goods or rendered services to the Government may issue and send electronic invoice. - XML UBL 2.1, or other structured formats.	- Various formats: PDF, Paper, XML. <i>(Structured formats are the only ones that allow automation.)</i>
Mandated platform(s) required to have connection with for e-document processing	N.a.	N.a.
Other platform(s) relevant for e-document processing	Peppol	N.a.
Schematron(s), XSD schema or other official mechanisms ensuring document content	Peppol BIS 3 Schematron.	N.a.
Routing ID's / codes or other identifiers used in the jurisdiction for counterparty identification and document exchange	Prefix: Andorra VAT number 9922.	N.a.
Other technical aspects	E-mail distribution allowed.	

5.2. Communication with Mandatory Infrastructure

Regulations in Andorra foresee the following options on how e-documents can be communicated with the mandatory infrastructure(s):

Communication options	Commentary
Automated	N.a.
Manual	N.a.
Other options	N.a.

5.3. Issuance and clearance process

This section describes the document issuance and clearance process from the supplier perspective.

5.3.1. Domestic documents

This section describes the process for documents created to be transmitted within the given country.

B2B e-Invoicing follows the post-audit model:

The issuance process is unregulated, that is the document can be generated and transmitted in any format that is agreed upon by the trading parties. Several operations carried out on different dates for the same destination can be included in a single invoice, as long as they have been carried out within the same calendar month. Whereas that the invoice must be issued and delivered no later than the last day of the calendar month in which the operations documented therein have been carried out. However, when the recipient is subject to general indirect tax, invoices must be issued and delivered before the 20th of the following month.

B2G e-Invoicing is voluntary, and all public authorities can receive e-Invoices through Peppol network:

Andorra regulates electronic invoicing and encourages its voluntary use since 2012. The proposed formats for e-Invoice exchange is UBL 2.1., using PEPPOL-BIS 3, and the established platform is PEPPOL.

5.3.2. Cross-Border

This section describes the requirements for cross-border outbound documents such as sales invoices.

Use of e-invoicing for cross-border documents is not explicitly regulated in Andorra.

5.4. Reception and validation process

This section describes the document reception, validation, and acceptance processes from the buyer perspective.

The buyer can accept e-Invoices if it is agreed upon between the trading partners.

5.4.1. Domestic documents

This section describes the process for documents received for purchases or transactions within the given country.

Documents can be sent by any means, paper or electronic. The issue of electronic invoices is voluntary, and in any case is conditional upon the recipient's acceptance.

5.4.2. Cross-Border

This section describes the requirements for cross-border inbound documents such as purchase invoices.

No explicit regulations.

5.5. AoR (response) process

In Andorra, there are no explicit requirements for how to communicate invoice approval or rejection notification.

5.6. Mandatory Infrastructure validations

Some tax regimes require businesses to send tax documents to a predetermined hub either before or shortly after issuing invoices. Generally, a hub that requires this will send a reply to the issuer. This reply can be expressed as a clearance/ approval response, rejection, semi approval, etc.

There is no requirement to have invoices validated in Andorra. However, for invoices are sent via Peppol there will be invoice validations carried out by the sending certified Peppol Access Point to ensure the invoice contains the necessary information required.

5.7. Invoice presentation / copy

Some regimes require a visual presentation of the invoice file to be transmitted along with the structured invoice file. This section describes if there is any regulation concerning visual or image-based presentations of invoices as a copy for the original or vice versa.

Suppliers can only issue one original of each invoice. The issue of duplicate copies of the original invoice is only allowed in the following cases:

- When in the same delivery of goods or services to several recipients concur, in that case, the original portion and each of the duplicates must be entered in the portion of the tax base and of the reimbursed share.
- In the case of loss of the original for any reason.

To distinguish duplicate invoices from originals, the expression "*Duplicar*" must be included on the duplicate invoice.

There is no requirement for invoices to have a presentation format, such as PDF.

Issuing a PDF Presentation (a human-readable duplicate) when Tax invoices are issued in machine-readable format files can be confusing. To ensure the correct management of original documents, in addition to technical controls, Pagero Online adds "Copy Tax Invoice" on PDF Presentations where Tax invoices have been issued as machine-readable format files.

5.8. Distribution between taxpayers

This section explains if and how trading parties can send invoices between each other. In some cases, hubs also distribute the tax document to the buyer.

Item	Commentary
Push communication	• No explicit requirements.
Pull communication	• No explicit requirements.
E-mail distribution	• B2B: Allowed. • B2G: Allowed.
Web portal⁴	• B2B: no explicit requirements • B2G governmental portal: optional.
Scanning inbound invoices	• No explicit requirements.
Scanning outbound invoicing	• No explicit requirements.

5.9. Rectification process

The purpose of this section is to describe how to proceed when an invoice contains an error, how it is to be handled and corrected by both buyer and seller, and whether a notification needs to be sent to the tax authorities.

Rectification process	
What are the options to correct an invoice if an incorrect IT rate, exemption or reverse charge is applied on the invoice	• Corrective invoice/ <i>Factura Rectificativa</i> (Credit Note).

⁴ Note, however, that prior to using an external portal, like Pagero's Web portal, Suppliers are required to already have an invoice / invoice data in their internal accounting software. Portals are not designed for the purpose of replacing internal accounting but are a mechanism to make invoices available for the Buyer. Recommended only for businesses issuing fewer than 100 invoices annually.

	Corrective invoices must comply with the same content requirements as normal invoices.
What are the options to correct an invoice if the customer returns the goods	- Corrective invoice. - Corrective invoices must comply with the same content requirements as normal invoices.
What are the options to correct an invoice if the customer paid too much	- Corrective invoice. - Corrective invoices must comply with the same content requirements as normal invoices.
What are the options to correct an invoice if the supplier agrees to a discount after the invoice was issued to the customer	- Corrective invoice. - Corrective invoices must comply with the same content requirements as normal invoices.
What are the options to correct an invoice if the invoice misses data such as name, address, IT number, invoice reference, etc.	- Corrective invoice. - Corrective invoices must comply with the same content requirements as normal invoices.
Other scenarios with different correction option	No.
Party entitled to issue a credit note/ corrective invoice if the invoice was issued by the supplier (i.e., no self-billing)	Supplier.
Allowed to draft a 'waiting' document/interim document' in the absence of a purchase invoice and report IT as due and deductible based on this document	No.

5.10. Coexistence of paper and electronic invoices

Item	Commentary
Whether parallel invoicing (issuance and exchange of the same document in several formats, e.g., electronically and on paper) is allowed and/or whether there are any regulations surrounding it	Allowed.
Whether the jurisdiction allows for document (e.g., invoice) dematerialization, i.e., destruction of the original paper invoice, for processing and/or archiving	Allowed.
Whether any conditions apply, and which, to the dematerialisation	The authenticity of the provider and the integrity of the content must be guaranteed.
Whether the jurisdiction allows for document (e.g., invoice) materialization, i.e., destruction of the	Allowed.

original electronic document, for processing and/or archiving	
Whether any conditions apply, and which, to the materialisation	• The authenticity of the provider and the integrity of the content must be guaranteed.

5.11. Contingency invoicing

This refers to the process for e-invoicing if any mandatory infrastructure is inaccessible. If temporary measures are available, or allowed, to facilitate invoicing during the downtime.

No explicit requirements or methods are disclosed.

6. Document content requirements

6.1. Document types

Item	Commentary
Documents mandatory for issuance by supplier	• Complete Invoice. • Simplified Invoice. • Tickets.
Documents mandatory for issuance by buyer	• No.

Item	Commentary
Self-billing allowed	• Yes.
Simplified invoice allowed	• Yes. The obligation to issue and deliver a simplified invoice can be fulfilled by issuing a ticket⁵ exclusively when the amount of goods delivered and services rendered does not exceed the annual amount of 40.000 Euros, only in B2C operations, if such operations are not exempt and are located in Andorra.

6.2. Document numbering

This section outlines the requirements to the sequential numbering of invoices and, where applicable, other documents.

⁵ If the goods and services delivered do not exceed 40.000 Euros per year, B2C operations in Andorra that are not VAT exempt may use a ticket instead of a simplified invoice. Accordance to "*Reglament que regula les obligacions de facturació*" the ticket must contain some specific information.

6.2.1. Document numbering by the taxpayer

Item	Commentary
A sequential number, based on one or more series, which uniquely identifies the invoice	• Yes. The numbering of the invoices must be chronological and continuous at issuance.
Different series of sequential numbers allowed (e.g., a separate sequential numbering for intercompany billings, credit notes, etc.)	• Yes. Among other cases, the taxable person may use invoicing numbering with a distinct series of numbers if the following conditions are met: - When the invoice is issued by the third-party/ outsource. - When the taxable person has several establishments from which he operates. - When the taxable person carries out operations of different nature. - Rectification invoices.
Allowed to start a new sequential numbering every year	• Yes.
Worldwide numbering on the legal entity level is allowed if gaps can be explained	• No.
Required that the numbers follow the date of issuance (i.e., an invoice with number 2 cannot have an invoice date older than the invoice with number 1)	• Yes.

6.2.2. Additional document numbering

A description of any additional numbering should be included in this section, for example, if the tax authority provided additional numbering or if the taxpayer requested it.

There is no additional document numbering in Andorra.

6.3. Indirect tax (IT)⁶ rates

This section illustrates the applied IT⁷ rates and provides a non-exhaustive list with examples of goods and/or services that fall within specific IT rates. IT rates that differ between different administrative units are clearly outlined.

Indirect tax rates		
9.5%	High	Bank and financial services.
4.5%	Standard	All other taxable goods and services.

⁶ For the purpose of this document, IT refers to Indirect Tax, including, but not limited to Value-Added Tax (VAT), Goods and Sales Tax (GST), Sales tax, etc.

⁷ Local name Impost General Indirecte.

2.5%	Reduced	Fees charged by tourism operators, objects of art.
1%	Reduced	Food and drink (except alcohol), certain media (books, magazines and newspapers).
0%	Exempt	Education, healthcare, and medicine.

6.4. Mandatory IT invoice content

The section below illustrates the minimum legal requirements related to the content of invoices issued according primarily to the indirect tax regulations of Andorra. Please note that other additional content requirements might apply in addition, i.e., of technical character.

General	
Required to mention the word "invoice"	• Yes.
Required that the invoice is issued in the language of the country entitled to impose the invoice requirements	• All invoices must be issued in Catalan, if suppliers are established in Andorra.
Sequential numbering	• Yes.
Required to mention copy or duplicate in case a copy is issued	• Yes.
Reference in case of outsourced issuance	• Yes.

Supplier data	
Full legal name of the supplier	• Yes.
Allowed to abbreviate or shorten the legal name of the supplier	• No explicit requirements.
Full address of the supplier in country of establishment	• Yes.
Allowed to mention the PO box address instead of the legal address of the supplier	• Yes, provided that the legal address is mentioned as well, and it is clearly indicated.
IT identification number/sales tax number from the supplier in the country where the supply takes place for IT purposes	• Yes.
IT identification number of the supplier in the country of establishment	• Yes.
Information (i.e., name, address, IT number) of the fiscal representative of the supplier (if appointed)	• No.
Legal form of the supplier	• No.
Trade register number of the supplier	• No.

Company Registry data of the supplier (e.g., court registration, address of chamber of commerce)	No.
Place of legal seat of the supplier (Headquarters)	No.
Other supplier data	No.

Customer data	
Full legal name of the customer	Yes.
Allowed to abbreviate or shorten the legal name of the customer	Yes, provided the full legal name is mentioned as well.
Address of the customer in country of establishment	Yes.
Bill-to address when it is different from the registered address of the customer	No.
Allowed to address the invoice to a Post Office Box address instead of the legal address of the customer	Yes, provided that the legal address is mentioned as well, and it is clearly indicated.
IT identification number in the country where the supply takes place for IT purposes in case of domestic supplies (if available)	Yes.
IT identification number of the customer in the country of dispatch for invoices issued for exempt export supplies	Yes, if available.
IT identification number of the customer in another Member than the Member State of dispatch for intra-Community supplies	Yes.
Information (i.e., name, address, IT identification number) of the fiscal representative (if customer has appointed a fiscal representative)	No.
Other customer data	No.

Transaction data	
Date of issue	Yes.
Date of supply (chargeable event)	- Yes. - Only if the supply of goods took place in a different tax settlement period than the issuance of the invoice.
Date of prepayment	No.
Description of the goods/services	Yes.

Quantity of the goods supplied, or the extent of the services supplied	• Yes.
Purchase order number	• No, but recommended.
Shipped from location (for the supply of goods)	• No, but recommended. • Especially in case of cross-border transactions.
Shipped to location (for the supply of goods)	• No, but recommended. • Especially in case of cross-border transactions.
Status of the goods (e.g., in bond, in free circulation)	• No, but recommended. • Especially in case of cross-border transactions.
Incoterms	• No, but recommended. • Especially in case of cross-border transactions.
Other information on the supplied goods/services required (except in case of intra-Community supply of new means of transport)	• No.

Financial data	
Taxable base per item (unit price excl. IT)	• Yes.
Total taxable base per IT rate or exemption	• Yes.
IT rate applied	• Yes.
Total IT amount calculated per rate	• Yes.
Total IT amount payable	• Yes.
Discounts/rebates if not included in the unit price	• Yes.
Total gross amount (including IT)	• Yes.
Mandatory to mention the total IT amount due in the national currency	• Amounts on the invoice, including the total VAT amount payable, may be expressed in any currency. Exchange rate is subject to change at the time of accrual of general indirect tax.
Which other amounts (i.e., none, only the total IT amount) must be mentioned in the national currency of your country	• None.
Exchange rate (if the invoice is not issued in the local currency)	• Yes. • The exchange rate is subject to change at the time of accrual of general indirect tax.
Which exchange rate must be applied in order of priority	• The one established by the Andorran Government on the date the supply/service is borne.

Terms of payment	No, but recommended.
IBAN and BIC number of supplier	No, but recommended.

Specific references for invoices	
Invoice reference in case of IT exemption or reverse charge	Yes.
List the required references in case of exemption or reverse charge	Yes. When exempt for non-taxable operations are included in an invoice, this must include the legal reference that allows for such exemption for non-taxation event.
Allowed to refer to the appropriate provision in Directive 2006/112/EC for: - "reverse charge" for supplies subject to a reverse charge mechanism; - "supply is taxable in the country of the recipient" for B2B supplies of services; - "exempt intra-Community supply – article 138 VAT Directive"; - "Exempt export – article 146 VAT Directive"; - "simplification for triangular sales – article 141 VAT Directive – " Transfer of own goods- article 17 VAT Directive"?	No explicit requirements.
Required to specifically mention 'margin scheme – travel agencies', 'margin scheme – second hands goods', if applicable	No, but recommended.
Reference required if the transaction takes place outside the EU as a result of the Use and enjoyment provisions	Yes. A reference to the Law should be included in the invoice.
Specific other reference required, e.g., in case of barter transaction, prepayments, etc. (not self-billing or special margin schemes)	No.
Specific references required in case invoicing is outsourced	The outsourced invoice must include an invoicing serial number different from the non-outsourced invoices.
Reference to 'cash accounting scheme' in B2B sales in case the IT is due by the supplier upon receipt of the payment/ IT is deductible by the customer upon payment	No, but recommended.
Other specific requirements/ references to be mentioned on an invoice	No.

6.5. Simplified invoice

The Supplier is not always obliged to issue a complete invoice. In certain scenarios, they may be able to issue a so-called simplified invoice.

Simplified invoicing	
Possible to issue simplified invoices for certain supplies	• Yes.
Maximum amount for simplified invoices	• EUR 40.000.
Other supplies for which a simplified invoice can be issued	• Can be issued in B2C operations, if such operations are not exempt and are located in Andorra. If the recipient of the invoice requests the invoice to be complete, despite meeting the above requirements, the invoice must be complete.
Simplified invoices limited to certain type of supplies	• No.
Simplified invoices not allowed for certain transactions	• No.
Minimum content requirements on a simplified invoice	• Sequential invoice number. • Date of issue of the invoice. • Full company name of issuer. • Address of Taxpayer. • Issuer's NRT number. • Tax rate(s) applied, or the statement "IGI incluido" or "VAT included". • Total amount of transaction. • Description of the transaction.
Invoices subject to the national invoice requirements (not self-bills)	• Invoices issued by an established supplier that are taxable in another country but where VAT is due by the customer. • Invoices issued by an established supplier that are taxable in another country but where VAT is due by the supplier. • Invoices issued by an established supplier that are taxable in our country.
(other) Invoices subject to the national invoice requirements (not self-bills)	• No.

Pagero Online does not support the creation of simplified invoices as they typically do not correspond to the business requirements of Buyers.

6.6. Rectification document

In Andorra, a corrective invoice must be issued as rectification document and it should include at least the following information:

Specific references for rectification documents	
Must the word "credit note" be mentioned	• Yes.
Reference to original invoice required on a credit note	• Invoice number and date.
Clear indication required that the amount mentioned on the credit note is crediting earlier amount (e.g., minus sign '-')	• No, but recommended.
Reason for credit required	• Yes.

Sequential numbering	
Separate sequential credit note numbering required	• Yes.
Allowed to issue one credit note to correct different invoices	• No.

Pagero Online creates corrective invoices according to the content requirements of the Complete invoice.

6.7. Optional content

This section outlines briefly whether and how the trading parties can provide additional content in the technical e-Document format mandated or otherwise prescribed in the specific jurisdiction.

There is no other optional content in Andorra.

7. Integrity and Authenticity

Ensuring the integrity of the content, as well as the authenticity of the origin (I&A) of an invoice, is an obligation for both the Supplier and the Recipient.

The purpose of this section is to further clarify the local I&A requirements on B2B invoices, as well as outline whether different requirements apply to B2G invoices. The review is done both from the Supplier's and the Recipient's perspective, as varying rules may apply.

Item	Supplier	Recipient
Whether it is mandatory to ensure I&A in the jurisdiction	• Yes.	• Yes.
Which methods for ensuring I&A are provisioned for	• Business controls creating a reliable audit trail. • Digital signature. • EDI.	• Business controls creating a reliable audit trail. • Digital signature. • EDI.
Which requirements apply for I&A methods if ensured by a third-party (outsourcing)	• No specific requirements.	• No specific requirements.

7.1. e-Signature

Even where e-signature is not an explicit requirement, Pagero recommends that our customers apply it as, globally, it is the most widely accepted legal means of ensuring I&A for business transactions.

In practical terms, this results in the same evidential position for e-Documents as for paper documents. This unique feature of e-Signature provides an exceptional level of legal certainty.

Item	Commentary
e-Signature technical requirements	Law 35/2014, of November 27, on electronic trust services provides that e-Signatures must comply with the following: • e-Signature: data in electronic form annexed to other electronic data or logically associated with using the signatory to sign. • Advanced e-Signature: a) Be linked to the signatory so unique. b) Allow the identification of the signatory. c) have been created using electronic signature creation data that the signatory may be used, with a high level of trust electronics, under its exclusive control. d) be linked with the data referred to in such a way that any further modification is detectable. • Qualified e-Signature: a) have been created by means of a device for the creation of qualified electronic signatures. b) Be based on a qualified electronic certificate of electronic signature.
Automated e-signing	• Not explicitly regulated.
Timestamping of e-signature	• No explicit requirements.

7.2. e-Signature validation

The Recipient of an invoice is often required by law or practice to validate the e-signature on the received invoice. Even for countries where the validation-upon-receipt is not expressly regulated, this is recommended by Pagero for both trading partners to be able to guarantee I&A.

Item	Commentary
Validation upon receipt	• No regulatory approvals required for validation requirements
Timestamping of validation data	• No explicit requirements

8. Document retention

This section describes archiving requirements regarding the e-Invoicing process and documents handled by Pagero. Please note, additional archiving requirements may apply to your specific documents.

Item	Commentary
Components to be stored (e.g., tax invoice, source documents, audit trail, I&A proof)	• Original invoice with e-Signature including certificate or other evidence of integrity and authenticity as appropriate.
Requirements to present stored documents in a specific audit format	• No specific guidance in place to transform to audit format, however creating a reliable audit trail ensures the fulfilment of authenticity and integrity.
Legibility, i.e., the ability to read stored e-documents by an untrained eye	• Not explicitly regulated.
Legibility requirements	• Not explicitly regulated, however, requirements should be granted by any proof recognized in law.
Retention period for invoices not related to immovable property⁸	• 3 years
Start point of retention period calculation for invoices not related to immovable property	• Starting from the date of issuance/receipt of the invoice.
Retention period for e-Invoices related to immovable property	• 3 years (although for accounting purposes this could be needed for longer periods).
Start point of retention period calculation for invoices related to immovable property	• Starting from the date of issuance/receipt of the invoice.
Retention period for other than regular invoices or invoices related to immovable property (if existing):	• 3 years.

⁸ Pagero stores all documents for 90 days due to data privacy and security regulations, after which the data is automatically deleted, unless Archive has been selected. Pagero provides long term archiving (for the legally required term, plus one year)

Start point of retention period calculation for other than regular invoices or invoices related to immovable property:	Starting from the date of issuance/receipt of the invoice.
Outsourced archiving	Allowed.
Archiving abroad⁹ and conditions, if any (e.g., notification, derogation, online access, mutual tax assistance treaty)	Yes.
Other requirements in relation to electronic document retention	No.

⁹ In certain situations, or jurisdictions deviating requirements – typically regarding archiving abroad – may apply to invoices and related documents, e.g. concerning matters of defence and national security. Therefore, Pagero encourages customers to inquire for and receive an explicit written statement from the local tax authority stating that the archiving of such documents outside of the taxpayer's country is permitted. Pagero in a capacity of a third-party may not apply for derogations or clarifications of this nature on behalf of a taxpayer.

9. Other transactional documents

Along with invoices, countries may have regulations relating to other trading documents. The purpose of this section is to provide a selective (not exhaustive) overview of the regulation of other transaction-related documents of importance.

Document	Commentary
Purchase order	• No explicit requirements
Rectification document	• Yes, see section 6.6 above
Payment instruction	• No explicit requirements
SAF-T (or alike) reporting	• No explicit requirements
Transportation documents	• No explicit requirements
Other	• No explicit requirements

10. Other requirements

This section highlights certain aspects of the local regulations and infrastructure that differ from Pagero's General invoice processing and our standard country compliance investigation.

10.1. Public procurement

No explicit requirements.

10.2. Indirect tax reports

No explicit requirements.

11. Country-specific processing

This section outlines how the Pagero General e-Invoicing process has been adapted to the local requirements to ensure compliant local processing.

11.1. Document issuance (AR) with Pagero

- (1) PAGERO ensures that documents can be exchanged with your company and your suppliers and customers, from your company perspective in a single format to ensure 100% digital AR and AP processing, while on the other hand in the preferred format and exchange mechanism with your trading partners.
- (2) PAGERO ensures the customer-specific document content, document integrity and authenticity, as well as archiving requirements.
- (3) PAGERO supports unlimited number of document formats and multiple exchange mechanisms.
- (4) PAGERO supports such exchange channels as: Interoperability, Peppol, EDI, portal, e-mail, data capturing / scanning, etc.

11.2. Document reception (AP) with Pagero

- (1) PAGERO ensures that documents can be exchanged with your company and your suppliers and customers, from your company perspective in a single format to ensure 100% digital AR and AP processing, while on the other hand in the preferred format and exchange mechanism with your trading partners.
- (2) PAGERO ensures the customer-specific document content, document integrity and authenticity, as well as archiving requirements.
- (3) PAGERO supports unlimited number of document formats and multiple exchange mechanisms.
- (4) PAGERO supports such exchange channels as: Interoperability, Peppol, EDI, portal, e-mail, data capturing / scanning, etc.

12. Closing statements

12.1. Confidentiality

This General invoice processing description of Pagero Online, our Country Compliance Reports, and other documents provided by Pagero are of confidential nature and are only intended for and may only be used by Pagero's Customers, their employees or other authorized recipients for the purpose or purposes specified and agreed to between the parties. Descriptions, reports, and documentation may not – neither in full nor in parts – be copied or otherwise distributed to third parties without Pagero's prior written consent.

12.2. Disclaimer

In order to establish a relationship based on trust and transparency with our Customers, Pagero provides its General e-Invoice and e-Archiving processing descriptions of Pagero Online as well as Pagero's Country Compliance Reports. These documents are intended to enable our Customers and their tax advisors to assess how Pagero has interpreted the relevant legislation and implemented it in our processes in order to support our Customers to fulfil their legal obligations.

We would like to remind our Customers that, according to tax and accounting regulations, the outsourcing of any process to third parties (such as issuance, compiling, processing, receipt, or archiving of e-Invoices), will not lead to a shift of liability, the liability will remain with the Customer. Accordingly, the taxable person always remains responsible towards the local authorities for ensuring their e-Invoice compliance, and for fulfilling accounting and reporting requirements. We want to emphasise this, in the light of that there can be potentially conflicting regulations on regional, national, or international levels.

Pagero endeavours to only include and provide accurate and up to date information. However, Pagero makes no guarantees as to the accuracy of any statement, information or advice provided by Pagero, whether in writing or verbally. The Customer must make an informed decision about whether to adhere to and follow such recommendations or not. The final decision and responsibility regarding tax, accounting, and reporting issues rest with the Customer.
